

Research Coordinator

We need a motivated, confident & hard working individual aged 25+, with a Masters degree in a natural sciences subject and experience in wildlife/environmental research and conservation. Must be computer literate and hold a full clean Driving Licence. Duties include organizing and conducting predator related field research, predator capture and care, data analysis, report writing, publication of scientific papers, fundraising, overseeing independent researchers, equipment care and assisting with other CCB activities when required. The position will be based at the CCB Ghanzi Camp in the Western Kalahari. Basic accommodation and salary is provided.

The position is for minimum 2 years.

Send a detailed CV and cover letter to rebecca@cheetahbotswana.com:

Post commencement: 1st September 2008

Closing deadline: 4th July 2008

Thanks!
